Exchange System Not Fully Built Three Years Later

Last week, Congress heard that at least 30-40% of the entire national Obamacare exchange system is not even built. The accounting system and the payment system aren’t ready. So more than 3 years and $600 million later -- and seven weeks after the rollout of the system -- key enrollment pieces are not even built.

This is another example of why we don’t want government-run health care. Incompetent, inefficient, slow, uncoordinated, non-transparent bureaucracies are not who we should trust with our health care. Imagine the bureaucratic snafus that could leave you without the care you need. Refuse to enroll in Obamacare.

Presented daily by Twila Brase, President, Citizens’ Council for Health Freedom.

The Health Freedom Minute is now heard in 37 states: Mornings M-Th at AM1280 (The Patriot) in MN and 91.5 AM WHKC (FreedomFM) in OH, afternoons on American Family Radio, and daily on the Bott Radio Network.
