Republicans Assist Obamacare

Welcome to the Health Freedom Minute. This is Twila Brase, president of Citizens’ Council for Health Freedom.

The Obamacare-mandated government insurance exchange, is meant to give the federal government control over all health insurance and all medical care in every State. This “single-seller system” is a key element of Obamacare. Unfortunately, too many Republicans are willing to install it for him.

On November 29th, the federal government announced that 13 states have passed legislation to create an exchange, 49 states have received a federal planning grant, and 29 states “are making significant progress” in establishing this national health care monstrosity. Of course they didn’t call it that. They called it a “marketplace.” They called it “affordable”. They called it everything but what it really is: the key to the federal takeover of health care. Will you stop it in your state?
