Don't Be Scared into Obamacare

Today is the last day Americans can apply and be guaranteed coverage on January 1, 2015. Most people think that if they are not covered by the first, they'll have to pay the Obamacare penalty tax of $325 or 2% of their income. Not true.

First, the law allows everyone to be uninsured for at least 2 consecutive months without being penalized. Second, you'll only be penalized according to the number of the remaining ten months that you're uninsured, and according to your tax filing threshold. Third, if you choose an exemption you won't be penalized at all.

FROM HHS: “If you don’t have coverage in 2015, you’ll pay the higher of these two amounts:

- **2% of your yearly household income.** (Only the amount of income above the tax filing threshold, about $10,000 for an individual, is used to calculate the penalty.) The maximum penalty is the national average premium for a bronze plan.

- **$325 per person for the year ($162.50 per child under 18).** The maximum penalty per family using this method is $975.
