**Two Million Jobs Lost Under Obamacare**

Last week the Congressional Budget Office reported that Obamacare will lead to a reduction in American work hours to the tune of 2 billion jobs ten years from now.

There are many reasons. The higher a person’s income, the more likely they are to lose the Obamacare premium subsidies. The law also exacts from higher earners an expanded Medicare payroll tax. In addition, because the law says Americans must be offered coverage, and taxpayers will foot much of the bill of those with lower incomes, some Americans may choose to leave the workforce or work fewer hours. And let’s not forget the 29-hour work weeks imposed by employers to avoid being required to offer high-priced insurance. This is Obamacare.
