**ALEC's Bill to Undo Obamacare**

“Obamacare faces a new threat,” says *The Guardian*, an English newspaper. That has a nice ring. The American Legislative Exchange Council, often called ALEC, has developed a clever piece of legislation to attack Obamacare. Or as the Brits say, “to scupper the federal health insurance exchanges.” The model piece of legislation which can be used by legislators in all 50 states is called The Health Care Freedom Act.

The Act would strip health insurers of their licenses to do new business on the federal exchanges if they accept any federal Obamacare premium subsidies. In short, it could imperil the entire law. Already Missouri and Ohio legislatures are debating the bill.

Presented daily by Twila Brase, President, Citizens’ Council for Health Freedom.

*The Health Freedom Minute is now heard in 40 states: Mornings M-Th at AM1280 (The Patriot) in MN and 91.5 AM WHKC (FreedomFM) in OH, afternoons on American Family Radio, and daily on the Bott Radio Network.*
