Tell Us Your HIPAA Story

HIPAA does not protect your privacy. More than 2.2 million entities now have access to your private medical records without your consent. That’s a federal number. We need your help to spread the truth about HIPAA.

Call us to get our wallet-sized HIPAA card that you can use to refuse to sign the HIPAA form. No law requires your signature, but some doctors initially refuse to provide care. The government has a web page telling doctors what to do when you legally refuse.

Then share your HIPAA story. We have a special HIPAA story button online. Tell us what happened when you refused to sign the form. Go to myHIPAAstory.com That’s my-H-I-P-A-A-story.com

Presented daily by Twila Brase, President, Citizens’ Council for Health Freedom.

The Health Freedom Minute is now heard in 40 states: Mornings M-Th at AM1280 (The Patriot) in MN and 91.5 AM WHKC (FreedomFM) in OH, afternoons on American Family Radio, and daily on the Bott Radio Network.
