The Wealth Transfer of Obamacare Subsidies

Jonathan Gruber, the much-beleaguered Obamacare architect who publicly said American voters are stupid also said if the law had “made it explicit that healthy people pay in and sick people get money, it would not have passed.” He went on to say that “Lack of transparency is a huge political advantage.”

Well, here’s some transparency. A radio caller recently told me her cost for Obamacare coverage increased from $50 per month to $95. I asked her how big her taxpayer subsidy is. She said a letter told her she saved $461 dollars. This is likely the subsidy, which is actually a wealth transfer from hard-working taxpayers to complicit health plans.
