GOP Governors Advance Obamacare

The American Legislative Exchange Council, representing conservative state legislators passed a resolution against the Obamacare health insurance exchange.

Yet seven states with Republican Governors are going against their legislatures to establish this federal takeover center in their states. Some governors have issued executive orders when the legislature refused to pass a bill.

The states include Alabama, Georgia, Indiana, Iowa, Mississippi, Ohio, and Wisconsin. Even worse, GOP Governors in Virginia and Nevada signed the Exchange into law. Obamacare does not require states to install the exchange, so why are Republican Governors helping Obama takeover health care?
