The Second Amendment Surprise

As evidence of Nancy Pelosi’s infamous quote, “we have to pass it so you can know what’s in it,” CNN reports a surprise found in Obamacare. It protects certain Second Amendment rights.

The law prohibits the collection of data on the presence, use, possession or storage of firearms or ammunition. It also prohibits rates for health insurance premiums from being raised on people who own or use a firearm. One Democrat source told CNN that it was probably added to the bill to keep the NRA out of the debate over Obamacare. CNN says Senate Majority Leader Harry Reid, who is himself a gun owner, is responsible for putting it into the bill. Despite this provision, Obamacare must be repealed.

“Section 2717” Section 1001, Subtitle A, Title I, Patient Protection and Affordable Care Act.

Presented daily by Twila Brase, President, Citizens’ Council for Health Freedom.
