Health Freedom Minute

January 23, 2012

How to Stop Obamacare

How do you stop Obamacare? You stop President Obama's government Health Exchanges. The Obama Administration just reported their progress in getting 10 States, including Minnesota and Alabama, to install these health care takeover centers. The time to stop it is now. Don't count on a repeal or the Supreme Court. Once established, government bureaucracies rarely die.

Too many GOP legislators have accepted Obama's word that these are marketplaces, but government doesn't create markets. It destroys them. Here's some good news. The governors of South Dakota and Wisconsin just said NO to the Exchange. Get involved now in your State. There's nothing free-market about a takeover of health care.
