Lawsuit - 5 Million vs 57 Million

On March 4th, King vs. Burwell will be heard in the Supreme Court. The lawsuit challenges the IRS subsidies to Obamacare enrollees using the federal exchange. Subsidies are only for state-based exchange enrollees. This is a big deal. Employers and many individuals are not subject to Obamacare mandates and penalties if there are no subsidies available.

If Mr. King wins, nearly 5 million people will lose taxpayer-funded subsidies they should never have received, but 57 million individuals and employers will be protected from the mandates and penalties. Republicans are worried about political fallout. Listen in tomorrow for reasons why legalizing the illegal subsidies is not a “fix.” It’s an expansion of Obamacare.
