

Citizens' Council for Health Freedom

Health Freedom Minute

February 26, 2013

What is an Exchange? - 3 Things

What is an exchange? You need to know that the Obamacare exchange is three things: IT connections, a website and a board of controllers. The website is a federal website connected to the federal government. It may have a state name like Access Health CT or Covered California, but the website is federal.

The IT connections are lines of online communication between the federal agencies and state agencies to impose Obamacare controls through access to your private medical, tax, family, employment, income and other data. The exchange Board will enforce your state's compliance with federal law and regulations. This is not a marketplace. It's a federal takeover center.

Presented daily by Twila Brase, President, Citizens' Council for Health Freedom.

The Health Freedom Minute is now heard in 37 states: Mornings M-Th at AM1280 (The Patriot) in MN and 91.5 AM WHKC (FreedomFM) in OH, afternoons on American Family Radio, and daily on the Bott Radio Network.
