## The Unthinkable is Happening

The unthinkable is happening. Florida's Rick Scott joins GOP governors from Arizona, Michigan, Nevada, New Mexico, North Dakota and Ohio to advance Obamacare by expanding Medicaid. If Medicaid is expanded, people will be forced into this system of poor care by Obama's mandate and we will be closer to national health care.

States must refuse to expand Medicaid and refuse to set up Obama's exchange, the federal takeover center. Our map of Obamacare states and the 26 free states, those without an exchange, is online. Information to call your governor and legislators is on our home page. This is a critical time. Call now to stop Obamacare and protect your freedom.
