The Wrongness of Regs

At a recent town hall meeting, Congressman Dave Brat, a Republican from Virginia was asked a question about Trump's executive order which requires two regulations to be eliminated for each new regulation added.

According to Brat, Utah Senator Mike Lee once said that “Congress does five inches of law a year. The executive branch does 11 feet of law and regs” a year. Brat said regulations “are $2.5 trillion out of a $19 trillion economy.” He then added, “When bankers hire 100 people, 80 are doing paperwork and 20 are doing banking. We need to clean the sclerosis out of the veins, get rid of the regs, get the economy moving.”

I agree.
