Leap Day - Citizens Leap into Lawsuits

It’s leap day. The perfect day to discuss the Obama Administration’s continued insistance that contraception is about women’s health and must be mandated by government.

Why is it the perfect day? It’s the perfect day because Obama thought he could leap right over your conscience and your freedom to implement his offensive agenda.

Somehow he thought he could leap and land unscathed despite your objections. Not so. Many Americans leaped right down his throat. Last Thursday, seven states filed a lawsuit in Nebraska against the contraception coverage mandate. This is the fifth lawsuit. Maybe that will be enough to cause Mr. Obama to leap back into reality, but somehow I doubt it.

Presented daily by Twila Brase, President, Citizens’ Council for Health Freedom.

The Health Freedom Minute is now heard in 37 states: Mornings M-Th at AM1280 (The Patriot) in MN and 91.5 AM WHKC (FreedomFM) in OH, afternoons on American Family Radio, and daily on the Bott Radio Network.
