Obamacare I vs Obamacare II

Tomorrow is the 6th anniversary of the Affordable Care Act. Most people know about the law’s exchanges, subsidies, the skyrocketing premiums and deductibles. I call that Obamacare I. But the really scary part of the law is the part you don’t see -- Obamacare II.

Obamacare II alters the power structure of health care by mandating managed-care-for-all. Your health plan is an empowered third party between you and your doctor. You might call it corporate socialized medicine.

I was at a hospital recently and overheard a nurse tell a patient that her doctor could not override her health plan’s treatment decisions. Obamacare is quietly taking treatment decisions out of your doctor’s hands. Let’s repeal the law.
