Your HIPAA Refusals are Working

As we have requested, many of you have refused to sign the clinic or hospital HIPAA privacy form -- or the statement that says you have received the HIPAA Notice of Privacy Practices. Some of you have been refused treatment.

I think your doctors have been calling the government. We just found a new federal document titled, “Understanding the HIPAA Notice.” It clearly states that you do not have to sign the form and they still have to treat you. It’s now on our website at cchfreedom.org

Take it with you to your next doctor’s appointment and let us know what happens. Keep refusing to sign and keep using our website to send in your stories. With your help we will restore your privacy rights. Thanks again for taking action.

Presented daily by Twila Brase, President, Citizens’ Council for Health Freedom.

The Health Freedom Minute is now heard in 42 states: Mornings M-Th at AM1280 (The Patriot) in MN and 91.5 AM WHKC (FreedomFM) in OH, afternoons on American Family Radio, and daily on the Bott Radio Network.
