Obamacare Shockers

Here are a few Obamacare shockers:

1) If a lower income person receives a premium subsidy, they may have to pay it back to the IRS if their income increases.
2) People eligible for Medicaid can’t get a subsidy, and some of them will be auto-enrolled in Medicaid.
3) If a person is enrolled in Medicaid, the program is considered a loan from the government. Everything in that person’s estate, including their home and bank accounts, could be subject to state recovery to pay back the loan.
4) It’s unclear how people will be warned about this possible seizure of their estate prior to enrollment in Medicaid.

Consider yourself warned. Stay out of the Exchange.
