Are You Caught in Corporate Socialism?

Speaker Paul Ryan tried to push Republicans to vote for a bill that did not repeal Obamacare and did not guarantee lower premiums, greater access to care, fewer controls on access to medication or wider networks.

Is it possible that Congress cannot imagine a world without unaffordable, restrictive managed care plans? How about you? Can you imagine googling “physician” and making an appointment without having to consult a network directory? Can you imagine your doctor prescribing a medication and you not asking “Is it covered?” If you can’t, you’re living in the chains of corporate socialism. If you want freedom, at a more affordable price, for longer visits with your choice of a doctor, go to jointhewedge.com
