No Fooling - 21 Page Application For Obamacare

The federal application to qualify for Obamacare through Obama's exchange is 21 pages long. The document explaining it is 61 pages. It's April Fool's day, but I'm not fibbing. All the state exchanges must use this federal form. Some argue that states should create their own exchange so the federal government doesn't impose one. Well, this form makes it clear that any state exchange is a federal exchange.

This single federal form also makes it clear that exchange coverage is not private health insurance. People will be applying to the federal government for federal coverage. Don't be fooled. Exchange coverage is government health care.
