Doc Fix is No Fix

There's a new law changing Medicare payments. It was dubbed the "Doc Fix" bill because it spared doctors from a 21% reduction in payments. But the bill is a disaster for freedom and the future of medicine. The Medicare actuary says the bill will cause even deeper cuts in the long run.

Obama and Nancy Pelosi are happy. It expands the Obamacare controls on doctors through new payment systems, which may encourage doctors to ration care to the patients for their own financial security. It also funds the Obamacare homevisiting program and its community health centers. Just 41 Republicans voted No. What were the other ones thinking?
