The Next Second Amendment Attack

President Obama lost the background checks battle in his fight to undo the Second Amendment, but he’s got more plans up his sleeve. In January the 14th of 23 gun-related executive orders, says he will, “Issue a Presidential Memorandum directing the Centers for Disease Control to research the causes and prevention of gun violence.”

A few weeks ago, his HHS budget reveals $20 million to expand “a nationwide violent death surveillance system” into all states and $10 million for research on the causes and prevention of gun violence.” Surveillance and research would likely be geared toward undoing our constitutional right to bear arms. Encourage your Members in Congress to refuse this funding request.
