Get Real About Canadian Single-Payer

Some say President Trump will choose a Canadian single-payer system. Let’s remember this is America. Trump can’t choose anything Congress doesn’t send him. Second, a single-payer system is unconstitutional. Third, Canada only has 35 million people. We have 320 million people in 50 states. Fourth, Canada pays a set amount of money each year to each province, which pays a set amount to each doctor and hospital.

When the cash is gone, some doctors head south to care for cash-paying Americans. But Canadians aren’t allowed to pay cash for care and their doctors can’t take cash without a huge penalty. Do you think Americans are willing to die waiting for care?
