Red State Resistance Rules

Blue states are running to install Obamacare and red states are refusing to implement it. Red state resistance is focused on the government health exchanges. While 18 mostly blue states have passed laws or issued executive orders, most red states have said no to these federal takeover centers.

Our organization has helped four states stop exchanges. CATO and ALEC, two D.C.-based conservative groups are also helping various states say no. Stopping Obamacare requires stopping the exchange. Look up our special web page: stophealthinsuranceexchange.org or even easier: nixthehix.org.

“Right winning war on state health-insurance exchanges,” J. Lester Feder and Jason Millman, POLITICO, April 18, 2012.
