The Only Way Back to Freedom

Obamacare forces insurers to insure people who are uninsurable. They’re uninsured and they’re already sick. This caused premiums to skyrocket.

Obamacare also requires insurers to charge sick people the same price as healthy people. This too caused higher premiums for the healthy, plus new taxes to pay for a smorgasbord of government subsidies because your premiums aren’t enough to cover those who are already sick.

What Democrats did was establish government health care. Insurance is for the insurable, those who don’t yet have a known medical condition so it’s there if they get sick. Obamacare makes true insurance illegal, but that’s the only way back to freedom.
