**Sebelius Shakedown Skirts Congress**

Obamacare is low on cash but the U.S. House has refused more funding. So HHS Secretary Kathleen Sebelius has been pressuring private industry to bankroll a nationwide Obamacare sign-up campaign conducted by Enroll America. HHS claims Sebelius has legal authority to support nonprofits that promote health.

But Enroll America, run by former Obama staffers, does no such thing. It is advancing socialized medicine and government control over health care. Now Enroll America has a powerful fundraiser as Sebelius tries to skirt the financial limits set by Congress. The list of Obama cabinet members involved in scandalous behavior grows longer every day.
