Get a Service-Driven Doctor While You Can

A blog called “The Happy MD” says “Concierge Medicine will grow because of Obamacare.” That’s because you won’t like being dropped into the “patient mill” that’s being created by all the new Obamacare recipients. You won’t like that you can’t get an appointment when you’re sick and even if you can you won’t like it that you can’t see a doctor.

The blog says either you’ll stick with this impersonal “volume driven” model that only lets you see a nurse practitioner or a physician assistant, or you’ll join the “service driven” model where the doctor works for you and you pay him or her directly. Concierge doctors don’t have as many patients and spend much more time with them and make themselves available on weekends, so get yours now before all the slots are filled.
