Don’t Take the Bait!

The Supreme Court is about to rule on the constitutionality of Obamacare. The administration is ignoring this fact. With your freedom and tax dollars at stake, the feds just gave out $181 million dollars to establish health insurance exchanges in six states. Since 2010, more than $1 billion dollars have been distributed to install these federal takeover centers.

To make it easier, the Feds want states to partner with them to run the exchanges. This is how the feds plan to disguise the takeover. If the exchange has a name like Iowa exchange or Texas exchange, the people will not know it’s actually a federal government exchange. States must not take the bait.
