You Can't Keep Your Insurance...Again

Remember how Mr. Obama said if we like our health plan we can keep it. Not so. A new study says 51 percent of Americans with individual insurance policies will not be allowed to buy these policies on the Obamacare health insurance exchanges.

So, in 2014, more than half of the people with individual policies will lose them. That’s right. Lose them. If you still want to buy one, they’ll be much more expensive. Many insurers have already dropped these policies in advance of 2014. So some of you have lost them already. If that’s you or will be you, please let me know. I want your stories.
