What Do You Think?

Happy Friday on behalf of the entire staff at the Citizens’ Council for Health Freedom. Thank you for listening, and I hope that what you hear is useful.

It is my greatest joy to bring the complexities of health care down to a level where the American people can grasp key realities and dangerous consequences of Obamacare, Medicare, federal mandates, HIPAA intrusions and more. And I enjoy sharing something you can do to protect yourself and your freedom.

I’m happy to say that the Health Freedom Minute is now heard every weekday on over 400 stations nationwide, and I welcome our newest listeners. I’d love to hear what you think. Just go to cchfreedom.org and let me know.
