Obamacare Threatens Ski Season

Obamacare may shorten the ski season. Yes, you heard that right. The general manager of Gunstock Ski Resort in New Hampshire says requirements that health insurance be offered to employees who are on a company payroll for 120 consecutive days or longer could mean opening the slopes later and shutting them down earlier.

The manager said he’s thinking of running the resort’s ski season from Christmas to the middle of March and running its summer adventure park season from the Fourth of July to Labor Day. This means less income for the owner, fewer days of fun for customers, and less hours and income for workers. Yet President Obama says Obamacare is working. For whom??

“Ski area manager says ACA may cut season short,” Bill Smith, New Hampshire Union Leader, April 17, 2014.
