Congressman Price Introduces a Post-King Bill

Last week, Congressman Tom Price introduced the RESCUE America’s Health Care Act. This legislation is a GOP plan in case President Obama loses in *King vs. Burwell*, the Obamacare case the Supreme Court will rule on by the end of this month.

If enacted, the bill’s provisions would only become effective if the premium subsidies issued by the IRS through the federal exchange are ruled illegal. The provisions would only apply to states without a state exchange or states that terminate their exchange.

The bill is complex reading, but includes tax credits up to $3,000, more freedom in health savings accounts, a partial repeal of Obamacare, creation of “individual health pools” and changes to pre-existing condition requirements.

Presented daily by Twila Brase, President, Citizens’ Council for Health Freedom.
