Act Now - VA Wants to Substitute Nurses for Doctors

Listen up. The VA proposes to dramatically expand the authority of certain nurses to treat patients without physician supervision, including diagnosis, ordering, and reading x-rays. The VA proposes this plan override all state and local laws that prohibit nurses from practicing as physicians.

There are already more than 37,000 comments and more are needed. This is the government’s first shot over the bow. The Obama administration believes they have the authority to rewrite state laws. They believe they can unilaterally deprive patients of physicians by turning nurses into doctors on their say-so. Find this radio minute on our website and click on the link to oppose the rule.
