Tell Feds No- Deadline June 27

Next Monday, June 27, is the last day you can comment on one of the worst federal health care regulations ever proposed. The Merit-Based Incentive Payment System regulation will drive most physicians out of practice, into retirement or into employment by large corporations. Small clinics will disappear.

The federal government says 87% of small clinics will be penalized with a loss of $300 million nationwide. The federal government doesn’t like independent doctors. But you do. So stop the federal government from shutting your doctor down. Act now. Go to cchfreedom.org and click on the link to oppose this proposed rule. Go to cchfreedom.org.
