Advancing Obamacare Regardless of Ruling

Just weeks before the Supreme Court ruling, the Obama administration began rapidly handing out Obamacare dollars. At the end of May, they handed out $181 million dollars for the establishment of government health exchanges, for a total of $1 billion dollars given to states to install this government takeover center.

On June 19th they handed out $30 million dollars for research intended to advance health care rationing. On June 20th they awarded $128.6 million dollars to Community Health Centers. I believe they hope to use the cash to implement Obamacare regardless of the ruling.
