The 3 C Solution

Dr. Lee Hieb, an orthopedic surgeon and Past-President of the Association of American Physicians and Surgeons, tells Fox News' John Stossel that the answer to health care is three C's.

The first “C” is cash for outpatient care. Cash-based competition will bring the cost of care down. The second “C” is catastrophic coverage. This is a real insurance policy for the unaffordable high costs of catastrophic illness or injury. The third “C” is charity. Friends, family, churches and local communities should care for each other – made easier by cash-based prices.

Dr. Heib says it is not charity when you reach into your neighbor’s pocket through taxation. It’s charity when you reach into your own pocket.
