The Obama Tax Penalty

The Obama Tax penalty is this nation’s largest tax increase. It is expected to raise $4 to $6 billion dollars from people who refuse to buy health insurance or cannot afford to buy it due to the higher premiums under Obamacare. This is a tax on the middle class — which Obama promised not to tax.

Meanwhile health plans make out like bandits. They expect to receive $1 trillion dollars from people forced to purchase government-approved, high-cost insurance and from taxpayer-funded Medicaid expansion. Anyone who is eligible for Medicaid will be forced into Medicaid when they register for insurance through a government exchange.
