Obama and Roberts Excel at Jiggery-Pokery

The Wall Street Journal’s Kimberley Strassel humorously dissects what she calls Chief Justice Roberts’ “Rules of Plain Textual Interpretation.” These are the same rules Justice Scalia called “interpretive jiggery-pokery,” rules that claim a federal exchange is a state exchange. In short, they mean the opposite of what they say.

Kimberly runs Obama’s post-Obamacare ruling statements through the new Roberts’ Rules to explain that they mean exactly the opposite of what he says. Thus she writes: “No…the [ACA] “is hardly ‘here to stay’; the law isn’t ‘working’; Obama isn’t going to make it “even better”;…and it was hardly “a good day for America.” So true.

Presented daily by Twila Brase, President, Citizens’ Council for Health Freedom.
