**New Obamacare Tax On You Starts in September**

Another Obamacare tax starts in September. It starts at $8 billion a year and it rises to more than $14 billion a year by 2018. In short, every health plan with more than $25 million dollars of premiums in 2014 has to pay a portion of the $8 billion tax.

Within the next 10 days, the federal government will tell each plan what portion they are required to pay to the federal government before September 30th. This will happen every year. As you know, a tax on your insurer is a tax on you. One actuary says individual premiums will be $500 higher this year and family premiums will be $700 higher because of the tax. So much for affordable health care.
