Scott Walkers Repeal Obamacare Plan

Last week, presidential candidate Scott Walker announced his “repeal and replace Obamacare” plan here in Minnesota. When I talked to him, he told me he’d first sign an executive order putting Congress into Obamacare and then push repeal. His plan repeals Obamacare, shifts certain programs from the federal government to the state and leaves tort reform to the states, where it belongs.

But presidential candidate Bobby Jindal called Walker’s plan ‘Obamacare Lite.’ And a FreedomWorks spokesman said both Jindal’s and Walker’s plans include entitlements and “share a lot of DNA with Obamacare.” I’ll be reviewing Walker’s plan for details, but this could be the problem with the replace part of any federal ‘repeal and replace’ plan.
