Planned Parenthood Gets Obamacare Cash

Have you watched the undercover videotapes on Planned Parenthood’s sale of aborted babies? On one videotape, a procurement technician describes the horror of cutting through the head of an aborted baby to extract the brain. Yet now we learn that Planned Parenthood chapters in Iowa, Missouri and Montana just received over $1 million dollars in federal grants to sign people up for Obamacare. One hundred nonprofits in 34 states got $67 million dollars.

Planned Parenthood also received these grants in 2013 and 2014. It was bad enough then, but that was before we knew what we know today. Obamacare enrollment begins again on November 1. But a House Judiciary hearing on the videos starts Wednesday.
