Will You Hear the Truth About Newborn Screening

September is newborn screening month. There may be lots of news coverage, but will you hear that newborn screening is actually government genetic testing of newborn citizens? Will you hear that state governments are storing and using the newborns DNA for research without the consent or knowledge of parents? Will you hear about the lawsuits? Will you hear how States are building Child Health Profiles by linking newborn genetic test results with other state databases? Hospital labs should do newborn screening so government never gets their hands on your baby’s data, genetic profile or DNA. Do you agree? Go to itsmydna.org for more information. www.itsmydna.org

Presented daily by Twila Brase, President, Citizens’ Council for Health Freedom.

The Health Freedom Minute is now heard in 37 states: Mornings M-Th at AM1280 (The Patriot) in MN and 91.5 AM WHKC (FreedomFM) in OH, afternoons on American Family Radio, and daily on the Bott Radio Network.
