(2) Determine how demographic and immunization data on all children under the age of five years shall be obtained and entered into the computer system and how it shall be kept up to date;  
(3) Determine how the data collected on immunizations shall be analyzed and communicated to parents, health care providers, and public officials while maintaining the confidentiality of patient records.  

for people with a need to know this information. However, participation in this system is voluntary. Most Missourians are not in the system, and most of the people in the system are young children. No agency or professional is required to keep these records, so it is always best to keep your own record in a safe place.”

19 CSR 20-28.040 Day Care Immunization Rule … (4) The parent or guardian shall furnish the day care administrator satisfactory evidence of completion of the required immunizations, exemption from immunization, or progress toward completing all required immunizations. (A) Satisfactory evidence of immunization means a statement, certificate, or record from a physician or his or her designee, other recognized health facility, immunization registry stating…
From: Powerpoint presentation at a 2005 CDC Conference describing data sharing in the Missouri Health Strategic Architectures and Information Cooperative (MOHSAIC) system:

“Export of required data to CDC and other entities in a format consistent with national standards and/or local requirements”

“Summary may be accessed by providers, local public health agencies, Medicaid managed care plans and the state health department.” – Patty Osman, MO Dept. of Health and Senior Services
