Seven Reasons to Oppose the Obamacare Exchange in MN

- 1) The government Exchange will impose Obama's restrictions, rationing and monitoring on Minnesota.
- 2) Seven strangers on the Exchange Board will decide your health care choices.
- 3) Your private medical, family, income and employment data will be shared with the Federal Government.
- 4) The Board of seven political appointees will make up its own rules without your input.
- 5) The Exchange bureaucracy & IT data-sharing superstructure will cost \$60 million per year to operate.
- 6) If you're forced into the Exchange, you can't buy health insurance without Federal approval.
- 7) Exempt from many state laws, the Exchange Board will be unaccountable and all-powerful.
