<td>STATUTE: ORS, Title 36, Chapter 433</td>
<td>433.094 Development of immunization registry and tracking and recall system; standards. The Oregon Health Authority, a local health department, or both, or their agents or other providers may develop an immunization registry and an associated tracking and recall system to include, but not be limited to, children and young adults.</td>
<td>433.092 Purpose of ORS 433.090 to 433.102; waivers of consent to release certain medical information. The purpose of ORS 433.090 to 433.102 is to waive the requirement of consent for release of information from, or providing information to, the immunization record of a client of any immunization registry and to waive issues of confidentiality in regard to this information.</td>
<td>433.100 Parental consent not required for enrollment in registry; rules; fees. (1) The Oregon Health Authority shall adopt rules pertaining to the development and implementation of the immunization registries and their associated tracking and recall systems. The rules shall include a process that allows a client who is 18 years of age or older, a custodial parent or guardian to control the transfer of information from the immunization record or the immunization tracking and recall record when such control is necessary to protect the health or safety of the family or the client.</td>

| 333-049-0020 | Purpose and Intent  
(1) ...(a) Authorizes the Public Health Division to develop a registry for all children and adults born or living in Oregon …  
(2) In order to increase appropriate immunizations among preschool age children, it is the intent that, as soon as practical, all children born in the state will be automatically enrolled in the registry using information derived from birth certificates… |
| 333-049-0030 | Enrollment  
(1) All children born in the state shall be enrolled in the registry. |
| 333-049-0120 | Deletion of Information in the Registry and Tracking and Recall System.  
A client who is 18 years of age or older may request to have their record sealed or removed from the registry. The election of whether to seal the record or remove the record is at the sole discretion of the client.  
(1) Process. A client requesting sealing or removal of their registry record must submit a form approved by the Manager for that purpose. The client may elect to have their record sealed or removed from the registry. If the client does not elect either option then their record will be removed from the registry.  
(2) Nothing in this section requires the consent of a parent or guardian prior to enrolling the child in the registry or restricts the registry from providing tracking and recall information to a custodial parent or guardian. |
| 333-049-0050 | Reporting to the Immunization Registry  
(1) Any provider who participates in the registry and who administers immunizations identified by the Manager shall report such immunization to the registry within fourteen (14) calendar days of such immunization. |
(2) The request for sealing or removal of a client’s record must also include a legible photocopy of one piece of photo identification. Acceptable identification includes any of the following: a valid state-issued driver’s license or identification card; a passport; or a U.S. military identification card.

433.098 Non-liability for disclosing or using information; confidentiality of information; removal of information. (1) An authorized user and the employees or agents of an authorized user are not liable for sharing information from the immunization record or using information from the immunization tracking and recall record for purposes of tracking immunizations of clients and for outreach to clients who have missed immunizations.
(3) If a client elects to have their registry record sealed, the information will remain in the registry but will not be released to authorized users. In the case of a declared public health emergency, the Manager may release the information to public health officials for the sole purpose of responding to the declared emergency. A client may request that their record be unsealed by submitting the form approved by the Manager along with a photocopy of an approved document that verifies the client’s identity. A record that is removed from the registry cannot be recovered.

(4) When an immunization record is removed from the registry, certain pieces of demographic information, including a client’s name and date of birth, must be kept on file in order to keep the immunization record from being repopulated. [emphasis added]
