Minnesota Statutes 62J
The State Medical Data Collection Law — Connection to Minnesota’s 2004 “best practices” law

- **Bolded Sections** may provide government officials with authority to establish and issue so-called “best practices” even after the 2004 MN “best practices” health care law (MS 62A.28) expires on June 30, 2004.
- **Key Words and Phrases** used by “best practices” proponents are found in this statute enacted between 1992 and 2001: quality, effectiveness, cost-effectiveness, outcomes, patient safety, efficiency, technology, unnecessary variations [in practice], appropriateness, and cost containment
- **Lack of Patient Consent and Penalties:** The specific language is found below in 62J.321, subd. 1 and 2.
- **Background and Controversy:** In August 2002, after using this law to collect and analyze six years of patient data from hospitals and 2 health plans, the Minnesota Department of Health proposed regulations to begin statewide government collection of patient-identifiable data. Due to front-page media attention, concerned legislators, and citizen opposition, the regulation was withdrawn in March 2003. However, attempts in 2003 to repeal the data collection provisions of 62J were thwarted by health officials in the Pawlenty administration and HHS Finance Chair, Rep. Fran Bradley (R-Rochester). Therefore the data collection law remains alive and active—and no regulation is needed prior to data collection activities.

62J.03 Definitions.

Subdivision 1. Scope of definitions. For purposes of this chapter, the terms defined in this section have the meanings given.

Subd. 2. **Clinically effective.** "Clinically effective" means that the use of a particular medical technology improves patient clinical status, as measured by medical condition, survival rates, and other variables, and that the use of the particular technology demonstrates a clinical advantage over alternative technologies.

Subd. 3. Repealed, 1997 c 225 art 2 s 63

Subd. 4. **Commissioner.** "Commissioner" means the commissioner of health.

Subd. 5. **Cost-effective.** "Cost-effective" means that the economic costs of using a particular technology to achieve improvement in a patient's health outcome are justified given a comparison to both the economic costs and the improvement in patient health outcome resulting from the use of alternative technologies.

Subd. 6. **Group purchaser.** "Group purchaser" means a person or organization that purchases health care services on
behalf of an identified group of persons, regardless of whether
the cost of coverage or services is paid for by the purchaser or
by the persons receiving coverage or services, as further
defined in rules adopted by the commissioner. "Group purchaser"
includes, but is not limited to, community integrated service
networks; health insurance companies, health maintenance
organizations, nonprofit health service plan corporations, and
other health plan companies; employee health plans offered by
self-insured employers; trusts established in a collective
bargaining agreement under the federal Labor-Management
Relations Act of 1947, United States Code, title 29, section
141, et seq.; the Minnesota Comprehensive Health Association;
group health coverage offered by fraternal organizations,
professional associations, or other organizations; state and
federal health care programs; state and local public employee
health plans; workers' compensation plans; and the medical
component of automobile insurance coverage.

Subd. 7.  **Improvement in health outcome.** "Improvement
in health outcome" means an improvement in patient clinical
status, and an improvement in patient quality-of-life status, as
measured by ability to function, ability to return to work, and
other variables.

Subd. 8.  Provider or health care provider.
"Provider" or "health care provider" means a person or
organization other than a nursing home that provides health care
or medical care services within Minnesota for a fee and is
eligible for reimbursement under the medical assistance program
under chapter 256B. For purposes of this subdivision, "for a
fee" includes traditional fee-for-service arrangements,
capitation arrangements, and any other arrangement in which a
provider receives compensation for providing health care
services or has the authority to directly bill a group
purchaser, health carrier, or individual for providing health
care services. For purposes of this subdivision, "eligible for
reimbursement under the medical assistance program" means that
the provider's services would be reimbursed by the medical
assistance program if the services were provided to medical
assistance enrollees and the provider sought reimbursement, or
that the services would be eligible for reimbursement under
medical assistance except that those services are characterized
as experimental, cosmetic, or voluntary.

Subd. 9.  **Safety.** "Safety" means a judgment of the
acceptability of risk of using a technology in a specified
situation.

Subd. 10.  Health plan company. "Health plan company"
means a health plan company as defined in section 62Q.01,
subdivision 4.

62J.04 Monitoring the rate of growth of health care spending.

[...] 

Subd. 3. Cost containment duties. The commissioner shall:

(1) establish statewide and regional cost containment goals for total health care spending under this section and collect data as described in sections 62J.38 to 62J.41 to monitor statewide achievement of the cost containment goals;

(2) divide the state into no fewer than four regions, with one of those regions being the Minneapolis/St. Paul metropolitan statistical area but excluding Chisago, Isanti, Wright, and Sherburne Counties, for purposes of fostering the development of regional health planning and coordination of health care delivery among regional health care systems and working to achieve the cost containment goals;

(3) monitor the quality of health care throughout the state and take action as necessary to ensure an appropriate level of quality;

(4) issue recommendations regarding uniform billing forms, uniform electronic billing procedures and data interchanges, patient identification cards, and other uniform claims and administrative procedures for health care providers and private and public sector payers. In developing the recommendations, the commissioner shall review the work of the work group on electronic data interchange (WEDI) and the American National Standards Institute (ANSI) at the national level, and the work being done at the state and local level. The commissioner may adopt rules requiring the use of the Uniform Bill 82/92 form, the National Council of Prescription Drug Providers (NCPDP) 3.2 electronic version, the Centers for Medicare and Medicaid Services 1500 form, or other standardized forms or procedures;

(5) undertake health planning responsibilities;

(6) authorize, fund, or promote research and experimentation on new technologies and health care procedures;

(7) within the limits of appropriations for these purposes, administer or contract for statewide consumer education and wellness programs that will improve the health of Minnesotans.

June 2004

and increase individual responsibility relating to personal health and the delivery of health care services, undertake prevention programs including initiatives to improve birth outcomes, expand childhood immunization efforts, and provide start-up grants for worksite wellness programs;

(8) undertake other activities to monitor and oversee the delivery of health care services in Minnesota with the goal of improving affordability, quality, and accessibility of health care for all Minnesotans; and

(9) make the cost containment goal data available to the public in a consumer-oriented manner.

==62J.212

62J.212 Public health goals.

The commissioner shall establish specific public health goals including, but not limited to, increased delivery of prenatal care, improved birth outcomes, and expanded childhood immunizations. The commissioner shall consider the community public health goals and the input of the statewide advisory committee on community health in establishing the statewide goals.

62J.2930 Information clearinghouse.

Subdivision 1. Establishment. The commissioner of health shall establish an information clearinghouse within the Department of Health to facilitate the ability of consumers, employers, providers, health plan companies, and others to obtain information on health reform activities in Minnesota. The commissioner shall make available through the clearinghouse updates on federal and state health reform activities, including information developed or collected by the Department of Health on cost containment or other research initiatives, the development of voluntary purchasing pools, action plans submitted by health plan companies, reports or recommendations of the Health Technology Advisory Committee and other entities on technology assessments, and reports or recommendations from other formal committees applicable to health reform activities. The clearinghouse shall also refer requestors to sources of further information or assistance. The clearinghouse is subject to chapter 13.

Subd. 2. Information on health plan companies. The
information clearinghouse shall provide information on all 
health plan companies operating in a specific geographic area to 
consumers and purchasers who request it.

Subd. 3. Consumer information. (a) The information 
clearinghouse or another entity designated by the commissioner 
shall provide consumer information to health plan company 
enrollees to:

(1) assist enrollees in understanding their rights;

(2) explain and assist in the use of all available 
complaint systems, including internal complaint systems within 
health carriers, community integrated service networks, and the 
Departments of Health and Commerce;

(3) provide information on coverage options in each region 
of the state;

(4) provide information on the availability of purchasing 
pools and enrollee subsidies; and

(5) help consumers use the health care system to obtain 
coverage.

(b) The information clearinghouse or other entity 
designated by the commissioner for the purposes of this 
subdivision shall not:

(1) provide legal services to consumers;

(2) represent a consumer or enrollee; or

(3) serve as an advocate for consumers in disputes with 
health plan companies.

(c) Nothing in this subdivision shall interfere with the 
ombudsman program established under section 256B.031, 
subdivision 6, or other existing ombudsman programs.

Subd. 4. Coordination. To the extent possible, the 
commissioner shall coordinate the activities of the 
clearinghouse with the activities of the Minnesota Health Data 
Institute.

HIST: 1995 c 234 art 5 s 5; 1997 c 225 art 2 s 62; 1999 c 245 art 2 s 7

==62J.301

62J.301 Research and data initiatives.
Subdivision 1. Definitions. For purposes of sections 62J.2930 to 62J.42, the following definitions apply:

(a) "Health outcomes data" means data used in research designed to identify and analyze the outcomes and costs of alternative interventions for a given clinical condition, in order to determine the most appropriate and cost-effective means to prevent, diagnose, treat, or manage the condition, or in order to develop and test methods for reducing inappropriate or unnecessary variations in the type and frequency of interventions.

(b) "Encounter level data" means data related to the utilization of health care services by, and the provision of health care services to individual patients, enrollees, or insureds, including claims data, abstracts of medical records, and data from patient interviews and patient surveys.

Subd. 2. Statement of purpose. The commissioner of health shall conduct data and research initiatives in order to monitor and improve the efficiency and effectiveness of health care in Minnesota.

Subd. 3. General duties. The commissioner shall:

(1) collect and maintain data which enable population-based monitoring and trending of the access, utilization, quality, and cost of health care services within Minnesota;

(2) collect and maintain data for the purpose of estimating total Minnesota health care expenditures and trends;

(3) collect and maintain data for the purposes of setting cost containment goals under section 62J.04, and measuring cost containment goal compliance;

(4) conduct applied research using existing and new data and promote applications based on existing research;

(5) develop and implement data collection procedures to ensure a high level of cooperation from health care providers and health plan companies, as defined in section 62Q.01, subdivision 4;

(6) work closely with health plan companies and health care providers to promote improvements in health care efficiency and effectiveness; and

(7) participate as a partner or sponsor of private sector initiatives that promote publicly disseminated applied research.
Subd. 4.  **Information to be collected.**  (a) The data collected may include health outcomes data, patient functional status, and health status. The data collected may include information necessary to measure and make adjustments for differences in the severity of patient condition across different health care providers, and may include data obtained directly from the patient or from patient medical records, as provided in section 62J.321, subdivision 1.

(b) The commissioner may:

1. collect the encounter level data required for the research and data initiatives of sections 62J.301 to 62J.42, using, to the greatest extent possible, standardized forms and procedures; and

2. process the data collected to ensure validity, consistency, accuracy, and completeness, and as appropriate, merge data collected from different sources.

(c) For purposes of estimating total health care spending and forecasting rates of growth in health care spending, the commissioner may collect from health care providers data on patient revenues and health care spending during a time period specified by the commissioner. The commissioner may also collect data on health care revenues and spending from group purchasers of health care. Health care providers and group purchasers doing business in the state shall provide the data requested by the commissioner at the times and in the form specified by the commissioner. Professional licensing boards and state agencies responsible for licensing, registering, or regulating providers and group purchasers shall cooperate fully with the commissioner in achieving compliance with the reporting requirements.

Subd. 5.  **Nonlimiting.**  Nothing in this chapter shall be construed to limit the powers granted to the commissioner of health under chapter 62D, 62N, 144, or 144A.

HIST: 1995 c 234 art 5 s 6; 1997 c 150 s 5

==62J.311
62J.311 Analysis and use of data.

**Subdivision 1.  Data analysis.**  The commissioner shall analyze the data collected to:
(1) assist the state in developing and refining its health policy in the areas of access, utilization, quality, and cost;

(2) assist the state in promoting efficiency and effectiveness in the financing and delivery of health services;

(3) monitor and track accessibility, utilization, quality, and cost of health care services within the state;

(4) evaluate the impact of health care reform activities;

(5) assist the state in its public health activities; and

(6) evaluate and determine the most appropriate methods for ongoing data collection.

Subd. 2. Criteria for data and research initiatives. (a) Data and research initiatives by the commissioner, pursuant to sections 62J.301 to 62J.42, must:

(1) serve the needs of the general public, public sector health care programs, employers and other purchasers of health care, health care providers, including providers serving large numbers of people with low-income, and health plan companies as applicable;

(2) be based on scientifically sound and statistically valid methods;

(3) be statewide in scope, to the extent feasible, in order to benefit health care purchasers and providers in all parts of Minnesota and to ensure broad and representative health care data for research comparisons and applications;

(4) emphasize data that is useful, relevant, and nonredundant of existing data. The initiatives may duplicate existing private data collection activities, if necessary to ensure that the data collected will be in the public domain;

(5) be structured to minimize the administrative burden on health plan companies, health care providers, and the health care delivery system, and minimize any privacy impact on individuals; and

(6) promote continuous improvement in the efficiency and effectiveness of health care delivery.

(b) Data and research initiatives related to public sector health care programs must:
(1) assist the state's current health care financing and delivery programs to deliver and purchase health care in a manner that promotes improvements in health care efficiency and effectiveness;

(2) assist the state in its public health activities, including the analysis of disease prevalence and trends and the development of public health responses;

(3) assist the state in developing and refining its overall health policy, including policy related to health care costs, quality, and access; and

(4) provide data that allows the evaluation of state health care financing and delivery programs.

HIST: 1995 c 234 art 5 s 7

62J.321 Data collection and processing procedures.

Subdivision 1. Data collection. (a) The commissioner shall collect data from health care providers, health plan companies, and individuals in the most cost-effective manner, which does not unduly burden them. The commissioner may require health care providers and health plan companies to collect and provide patient health records and claim files, and cooperate in other ways with the data collection process. The commissioner may also require health care providers and health plan companies to provide mailing lists of patients. Patient consent shall not be required for the release of data to the commissioner pursuant to sections 62J.301 to 62J.42 by any group purchaser, health plan company, health care provider; or agent, contractor, or association acting on behalf of a group purchaser or health care provider. Any group purchaser, health plan company, health care provider; or agent, contractor, or association acting on behalf of a group purchaser or health care provider, that releases data to the commissioner in good faith pursuant to sections 62J.301 to 62J.42 shall be immune from civil liability and criminal prosecution.

(b) When a group purchaser, health plan company, or health care provider submits patient identifying data to the commissioner pursuant to sections 62J.301 to 62J.42, and the data is submitted to the commissioner in electronic form, or through other electronic means including, but not limited to, the electronic data interchange system, the group purchaser, health plan company, or health care provider shall submit the patient identifying data in encrypted form, using an encryption method specified by the commissioner. Submission of encrypted
data as provided in this paragraph satisfies the requirements of section 144.335, subdivision 3b.

(c) The commissioner shall require all health care providers, group purchasers, and state agencies to use a standard patient identifier and a standard identifier for providers and health plan companies when reporting data under this chapter. The commissioner must encrypt patient identifiers to prevent identification of individual patients and to enable release of otherwise private data to researchers, providers, and group purchasers in a manner consistent with chapter 13 and sections 62J.55 and 144.335. This encryption must ensure that any data released must be in a form that makes it impossible to identify individual patients.

Subd. 2. **Failure to provide data.** The intentional failure to provide the data requested under this chapter is grounds for disciplinary or regulatory action against a regulated provider or group purchaser. The commissioner may assess a fine against a provider or group purchaser who refuses to provide data required by the commissioner. If a provider or group purchaser refuses to provide the data required, the commissioner may obtain a court order requiring the provider or group purchaser to produce documents and allowing the commissioner to inspect the records of the provider or group purchaser for purposes of obtaining the data required.

Subd. 3. **Data collection and review.** Data collection must continue for a sufficient time to permit: adequate analysis by researchers and appropriate providers, including providers who will be impacted by the data; feedback to providers; monitoring for changes in practice patterns; and the data and research criteria of section 62J.311, subdivision 2, to be fulfilled.

Subd. 4. **Use of existing data.** (a) The commissioner shall negotiate with private sector organizations currently collecting health care data of interest to the commissioner to obtain required data in a cost-effective manner and minimize administrative costs. The commissioner shall attempt to establish links between the health care data collected to fulfill sections 62J.301 to 62J.42 and existing private sector data and shall consider and implement methods to streamline data collection in order to reduce public and private sector administrative costs.

(b) The commissioner shall use existing public sector data, such as those existing for medical assistance and Medicare, to the greatest extent possible. The commissioner shall establish links between existing public sector data and consider and
implement methods to streamline public sector data collection in order to reduce public and private sector administrative costs.

Subd. 5. Data classification. (a) Data collected to fulfill the data and research initiatives authorized by sections 62J.301 to 62J.42 that identify individual patients or providers are private data on individuals. Data not on individuals are nonpublic data. The commissioner shall establish procedures and safeguards to ensure that data released by the commissioner is in a form that does not identify specific patients, providers, employers, individual or group purchasers, or other specific individuals and organizations, except with the permission of the affected individual or organization, or as permitted elsewhere in this chapter.

(b) Raw unaggregated data collected from household and employer surveys used by the commissioner to monitor the number of uninsured individuals, reasons for lack of insurance coverage, and to evaluate the effectiveness of health care reform, are subject to the same data classifications as data collected pursuant to sections 62J.301 to 62J.42.

(c) Notwithstanding sections 13.03, subdivisions 6 to 8; 13.10, subdivisions 1 to 4; and 138.17, data received by the commissioner pursuant to sections 62J.301 to 62J.42, shall retain the classification designated under this section and shall not be disclosed other than pursuant to this section.

(d) Summary data collected to fulfill the data and research initiatives authorized by sections 62J.301 to 62J.42 may be disseminated under section 13.05, subdivision 7. For the purposes of this section, summary data includes nonpublic data not on individuals.

(e) Notwithstanding paragraph (a), the commissioner may publish nonpublic or private data collected pursuant to sections 62J.301 to 62J.42 on health care costs and spending, quality and outcomes, and utilization for health care institutions, individual health care professionals and groups of health care professionals, and group purchasers, with a description of the methodology used for analysis. The commissioner may not make public any patient identifying information except as specified in law. The commissioner shall not reveal the name of an institution, group of professionals, individual health care professional, or group purchaser until after the institution, group of professionals, individual health care professional, or group purchaser has had 21 days to review the data and comment. The commissioner shall include comments received in the release of the data.

(f) A provider or group purchaser may contest whether the
data meets the criteria of section 62J.311, subdivision 2, paragraph (a), clause (2), in accordance with a contested case proceeding as set forth in sections 14.57 to 14.62, subject to appeal in accordance with sections 14.63 to 14.68. To obtain a contested case hearing, the provider or group purchaser must make a written request to the commissioner before the end of the time period for review and comment. Within ten days of the assignment of an administrative law judge, the provider or group purchaser shall make a clear showing to the administrative law judge of probable success in a hearing on the issue of whether the data are accurate and valid and were collected based on the criteria of section 62J.311, subdivision 2, paragraph (a), clause (2). If the administrative law judge determines that the provider or group purchaser has made such a showing, the data shall remain private or nonpublic during the contested case proceeding and appeal. If the administrative law judge determines that the provider or group purchaser has not made such a showing, the commissioner may publish the data immediately, with comments received in the release of the data. The contested case proceeding and subsequent appeal is not an exclusive remedy and any person may seek a remedy pursuant to section 13.08, subdivisions 1 to 4, or as otherwise authorized by law. […]

==62J.41

62J.41 Data from providers.

Subdivision 1. Cost containment data to be collected from providers. The commissioner shall require health care providers to collect and provide both patient specific information and descriptive and financial aggregate data on:

(1) the total number of patients served;

(2) the total number of patients served by state of residence and Minnesota county;

(3) the site or sites where the health care provider provides services;

(4) the number of individuals employed, by type of employee, by the health care provider;

(5) the services and their costs for which no payment was received;

(6) total revenue by type of payer or by groups of payers, including but not limited to, revenue from Medicare, medical assistance, MinnesotaCare, nonprofit health service plan corporations, commercial insurers, health maintenance organizations, and individual patients;
(7) revenue from research activities;

(8) revenue from educational activities;

(9) revenue from out-of-pocket payments by patients;

(10) revenue from donations; and

(11) any other data required by the commissioner, including data in unaggregated form, for the purposes of developing spending estimates, setting spending limits, monitoring actual spending, and monitoring costs.

The commissioner may, by rule, modify the data submission categories listed above if the commissioner determines that this will reduce the reporting burden on providers without having a significant negative effect on necessary data collection efforts.

Subd. 2. Annual monitoring and estimates. The commissioner shall require health care providers to submit the required data for the period July 1, 1993 to December 31, 1993, by April 1, 1994. Health care providers shall submit data for the 1994 calendar year by April 1, 1995, and each April 1 thereafter shall submit data for the preceding calendar year. The commissioner of revenue may collect health care service revenue data from health care providers, if the commissioner of revenue and the commissioner agree that this is the most efficient method of collecting the data. The commissioners of health and revenue shall have the authority to share data collected pursuant to this section.
