November 3, 2010

Deadline for Surveillance System Comments

Welcome to the Health Freedom Minute. This is Twila Brase president of Citizens’ Council on Health Care.

Please get your pen ready.

Today is the last day you can comment on the proposed National Health Surveillance system, officially called the National Health Information Network.

The federal government is creating the Network to link all your private medical records together online. They promise privacy even though a federal agency recently reported that 2.2 million entities have been given access to your records.

Tell the feds what you think about the National Health Information Network. Email them at: onc.request@hhs.gov. In the subject line, put “Governance Workgroup Recommendations.” Email it to: onc.request@hhs.gov.

Contact us at healthfreedomminute.net if you need more information.

The Health Freedom Minute is heard weekdays in Minnesota at 7:03 a.m., 11:03 a.m., 2:03 p.m. and 5:03 p.m. on WWTC AM1280 The Patriot.
