December 21, 2010

$624,142 per Person

Welcome to the Health Freedom Minute. This is Twila Brase, president of Citizens’ Council for Health Freedom.

As of November 1st, only 8,011 people are enrolled in the $5 billion dollar Obamacare program for people with pre-existing health conditions. Just 15 Minnesotans, and one person from North Dakota are enrolled. Pennsylvania has the most at 1,657 people.

Advocates claimed $5 billion was not enough for all the people who would enroll. They said 4 million people would be eligible and 200,000 would be enrolled by 2013.

Let’s do the math. Five billion dollars divided by 8,011 people is $624,142 per person. This is a classic example of government’s inability to make accurate estimates and their power to take our money regardless.
