May 3, 2011

Health Care Compact Signed

Welcome to the Health Freedom Minute. This is Twila Brase, president of Citizens’ Council for Health Freedom.

The Governor of Georgia has signed the health care compact into law. It becomes effective and restores state control over health care when two or more states have signed it. Each member state can suspend the operation of all federal health care laws, rules, regulations, and orders that are inconsistent with the Compact’s laws and rules.

In short, the Compact allows states to nullify Obamacare.

Just two days earlier, Arizona’s Governor vetoed the Compact bill saying the legislation violates separation of powers by directing her to sign the compact. She expressed fiscal concerns and said she supports efforts toward a better partnership with the federal government. However, Texas is also considering the compact.
