Mass Coercion of Physicians

Welcome to the Health Freedom Minute. This is Twila Brase president of Citizens' Council on Health Care.

A bill in Massachusetts shows what could happen under ObamaCare.

As you may know, Massachusetts passed universal health care several years ago. Now, they don’t have the money to pay for everyone they let into the state Medicaid program. That means they don’t have the money to pay doctors. So physicians are saying no to government patients.

The bill would force doctors to take Medicaid patients or lose their license to practice. It would also further decrease payments to doctors. If the bill passes, doctors will either have to comply or find another job and leave all their patients behind.

This is indentured service. ObamaCare and the Massachusetts law are similar. Is President Obama planning nationwide coercion of doctors?
